Frontend developer (React, TypeScript) who builds and deploys full-stack web apps, from Stripe checkout flows to tested, accessible interfaces. A.A.S. in Information Systems Technology (NOVA) and four years of café management: hiring and training staff, and running operations from sales and labor data.

PROJECTS

2DU Task Manager App | Mar 2025 – Present | Live Demo | GitHub
- Built a React + TypeScript task manager on Firebase (Auth, Firestore) with subtasks, tags, and priority levels
- Wrote 130+ tests with Jest, React Testing Library, and Cypress, including cypress-axe accessibility checks
- Added drag-and-drop ordering, global search, keyboard shortcuts, light/dark theme, and virtualized lists

Technologies: React, TypeScript, Redux Toolkit, MUI, Firebase, Jest, Cypress

KeyVault – Digital Game Key Marketplace | Jul 2025 – Present | Live Demo | GitHub
- Built a full-stack marketplace for 100+ games with Stripe Checkout and webhook-driven instant key delivery
- Designed a time-limited key reservation system so the same key can't be sold twice while a checkout is in progress
- Created an admin dashboard for product, key, and inventory management, revenue analytics, and user administration
- Secured the API with JWT auth, bcrypt, Helmet, CORS, rate limiting, and Stripe webhook signature verification

Technologies: React, Vite, Tailwind CSS, Zustand, Express.js, Prisma, PostgreSQL, Stripe, Vercel, Render

L'imprimerie Bakery Site (concept) | Feb 2026 – Present | Live Demo | GitHub
- Built a seven-page site in vanilla TypeScript and Vite with a hand-written router; Lighthouse Best Practices and SEO scores of 100
- Set up a CSS custom-property design system and a GitHub Actions pipeline that type-checks, builds, and deploys

Technologies: TypeScript, Vite, CSS, GitHub Actions
